

## QUIZ QUESTION

Using Derek's example in the previous window, deconstruct the window function alias into its two parts: the *alias* part and the *window function* part.

```
OVER (PARTITION BY account_id ORDER BY DATE_TRUNC('month',occurred_at)) AS
```

```
OVER (PARTITION BY account_id ORDER BY DATE_TRUNC('month',occurred_at))
```

### PART

### QUERY TEXT

Alias part

```
WINDOW main_window AS
```

Window function part

```
(PARTITION BY account_id ORDER BY  
DATE_TRUNC('month',occurred_at))
```
